From The Field: Garrett Owners' Success stories

Gilan Ann W. of Essex, England was thrilled to find this early ring. She was using her Garrett ACE 150 metal detector during a January 2010 rally in Sawbridgeworth.

Philip O. found these two silver coins in northern Belgium with an ACE 150. Both coins were minted in the mid-1500s.

While seasoned treasure hunters have been impressed with the Garrett ACE metal detectors, many younger enthusiasts have become turned on to the hobby by them. Whether enjoying a vacation or hunting a historic area with family, young hunters find the ACE 150 and ACE 250 to be powerful yet simple to operate.

Tim Williams (left) demonstrated his ability to locate and retrieve a coin with his ACE in this park.
