

3 DETECTORS in ONE

***Eureka* GOLD**

The World's **ONLY** detector to give
YOU the versatility and power of
3 SWITCHABLE FREQUENCIES

**Triple Frequency
VLF Technology**

The World Leader in GOLD Sensing Technology

3 Switchable FREQUENCIES allow you to target different size nuggets at different depths, making it the HOTTEST VLF detector on the market!

The Eureka Gold gives you 6.4kHz for **maximum depth**, 20kHz for general detecting and the **super sensitive** 60kHz to find the smallest gold nuggets that others are missing. Minelab's exclusive triple frequency technology **makes prospecting easier!**

Featuring Minelab's "Accu-Trak" Digital Ground Balance with switchable 2 speed recovery, combined with new microprocessor controlled discrimination circuitry takes the guess work out of detecting so YOU will **find more gold, more often**. Hot Rocks are no problem for the Eureka Gold, it will punch through highly mineralized soil with ease. Why restrict your prospecting when you can find more gold, with the Eureka Gold, **faster and easier than ever before**.

- Exclusive Triple Frequency operation with switchable 6.4, 20, or 60 kHz!
- "ACCU-TRAK" DIGITAL Ground Balancing with 2 speed adjustable or fixed mode.
- Iron Rejection in each frequency.
- Variable Discrimination Control gives you ultimate accuracy.
- Full coverage with Minelab's 10" Double D "easysweep" elliptical coil system.
- NEW Rugged Metal Armrest and stabilizer strap.
- NEW "FIRM FEEL" Comfort Balance Shaft.
- State-of-the-Art NiMH rechargeable Battery System.
- 2 position box mounting system.

Features

Length	Maximum	53in (1350mm)
	Minimum	47in (1190mm)
Weight	Control Box*	26.1oz (740gms)
	GoldSearch 1000 Elliptical Coil	14.8oz (420gms)
Configuration	2 position Shaft and optional Hip mount	
Technology	Very Low Frequency (VLF)	
Transmit Frequency	3 Frequencies (6.4, 20 & 60 kHz)	
Ground Rejection	Accu-Trak Digital Ground Balancing	
NiMH Rechargeable Battery System	12V, 1000 mAh	
Mains Charger	110V (USA), 230V (EU), 240V (AUS)	
Metal Arm Rest and Cover	Aluminium Arm Rest & Padded Cover	
Detector Stand	Aluminium, Detachable	

Controls

On/Off; Volume	1 turn control
Sensitivity	1 turn control
Threshold	1 turn control
Discriminate Level Adjust	1 turn control
All Metals/Discriminate	2 pos. switch
Tone	1 turn control
Frequency	3 pos. switch
Balance	2 pos. switch
Signal	3 pos. switch

Accessories

Alkaline Battery System	8 x 1.5V (AA)
Gold Search Coil	15 inch Spider & 11 inch Round
Car Charger	12V, Cigarette lighter plug
Hipmount Bag	Durable cordura with viewing window
Headphones	8-32 ohms

Warranty

Control Box	2 years
Coil	1 year

*including batteries
